## Quality Service & Parts that you can depend on

- Preventive maintenance performed to manufacturer's procedures
- Emergency & non-emergency repairs with 24/7 availability
- Tailored contract services
- Installation, removal & disposal services
- Equipment overhauls, upgrades & refurbishment
- New & reconditioned equipment sales
- Compatible with in-house and insurance programs
- All parts meet or exceed manufacturer's specifications
- All technicians are trained on specific manufacturers' equipment
- No hassle 90 day limited warranty

For years, our customers have trusted the highly trained and experienced technicians of STS North America to service their equipment. **Your organization deserves the same.** Contact STS North America today to learn how you can get quality service at outstanding prices.

## Our History

STS North America was established in 1995 by a group of owner/operators each with 30 years or more experience in sterilizer repair and medical equipment service. From its initial beginnings, STS North America has expanded to now provide nationwide service coverage. Our dispatch center and customer

support services are centrally located in Ohio with additional parts distribution centers and warehouses in:

Atlanta, GA  
Boston, MA  
Baltimore, MD  
Chicago, IL  
Hauppauge, NY  
Tampa, FL

Our mission is to offer a high quality, cost effective alternative to manufacturer's service for infection control and related products in Healthcare, Scientific, and Industrial facilities.

STS North America's customized service programs have been developed in response to requests by customers for a more responsive service alternative to the larger, high-priced manufacturer service organizations. Contact STS North America to receive a list of references from across the nation.
